

## X-Rework-A Basic rework system for boards up to 12" wide

### Features:

- ◆ **X-1000** - The most advanced and powerful pre-heater for SMT REWORK and REPAIR offering full Process Control, increased rework speed, board protection and operator convenience.
- ◆ **Focus A** - The low-cost convection rework system with closed loop temperature control. This is a basic but most modern rework tool. Ergonomic, reliable and simple to use. Has built in Heat / Cool Switch for Convenience.
- ◆ **XU-1S** - Universal, Retractable Board Holder for boards up to 12" wide has open frame construction for use with under board pre-heaters. Includes four adjustable, universal arms to hold and support irregular shape boards.
- ◆ **XK-2** - Tool Stand with up/down Z-axis movement holds an XHT Series Hot Air Tool in a vertical position for precise component removal and installation operations. The hot air tool is held vertically to the work platform of a base and bottom edges of any nozzle mounted on the tool are horizontal to a PCB, which is in a board holder placed on the work platform.
